WORK EXPERIENCE

Research Data Analyst | UW Madison | Madison, WI

06/2019 - 09/2019

- Worked under the direction of a professor and analyzed open crime data in city of Madison
- Used **Python** to generate graphs and animate crime data on the map
- Mapped out crime concentrations in Madison and analyzed for patterns

Help Desk Student Developer | UW Madison DoIT | Madison, WI

04/2018 - 09/2018

- Developed, maintained and improved the web applications used by the DoIT Help Desk to improve their workflow and efficiency. Used **JavaScript** and **Git** to complete those tasks
- Debugged and redesigned the scheduling tool. Improved schedule generation time and greatly reduced scheduling mistakes and clashes
- Managed projects with Kanban method using Trello and Slack to ensure that projects are taken and completed in timely and organized manner

Help Desk Quality Assurance | UW Madison DoIT | Madison, WI

11/2017 - 09/2018

- Led, guided and assisted ~10 help desk agents at a time in providing support to their customers and answered any questions that the help desk agents had in troubleshooting the problem

DoIT Representative | UW Madison DoIT | Madison, WI

05/2017 - 09/2017

- Gave public presentations and handled Q&A sessions for audiences of 50 - 100 people to inform and publicize the services and support that DoIT offers

PROJECT WORK

MusicPear | School Project

2019

- A music social media program that allows users to save, manage and share their playlists with other users. Built using **Unity**, **C#**, **PHP** and **MySQL**
- Developed the database system and managed how information is stored and pulled from it
- Built various functionalities for user to manage their library in the program

Bill Splitter | Personal

2019

- A **Python** program that can quickly calculate and split bills accurately among several people based on each person's distinct purchases. Also takes into account taxes and tips.

Mini Reversi | School Project

2018

- An AI program built using **Java** that determines the best possible move for a 4x4 Reversi board game
- Constructed game trees and used minimax theorem and alpha-beta pruning to determine the most optimum move for the player

INTERESTS AND HOBBIES

- **Music and movies** – Occasionally produce music and make videos
- **Board Games** – Host board games nights regularly with some board games enthusiasts
- **Travelling** – Solo travel to several states to experience different cultures and meet new people
